Year 11

Assessment Manifest

November 2026

WORK HARD, BE KIND

This booklet contains:

- A summary of how to revise effectively
- An assessment manifest for each subject: an outline of the mock exam requirements; the types of questions that will be asked; revision strategies and resources

Mock Exams

- You should treat the mocks as a *dry run* - so treat them as if they are the real thing
- Students **must** attend school on mock exam days. Attendance at all exams is mandatory for students
- Morning exams then begin any time from 9am, so you must be punctual! If you are running late, phone the school office and let us know.
- Students will then enter the exam hall at 14:00pm.

Wellbeing during exams

- Go to sleep by 10pm
- Have time without screens, particularly before bed. Read a book!
- Continue to exercise as you normally would
- Spend time with your family and friends. Sometimes meeting up at the weekend, revising together, and spending time not revising as well, can be helpful
- Schedule when you will do your revision and when you will take breaks: having a plan helps manage stress
- Eat healthily - avoid sugary drinks and snacks; get lots of vitamins, iron and protein!

How to revise

- Small manageable chunks avoid cognitive overload. If revising for a two-hour period, doing at least two different subjects is much more effective than sticking to the same subject for two hours.
- Set mini goals: add some mini goals you'd like to achieve by the end of each day. This helps you to avoid feeling overwhelmed.
- Do not just read your notes and highlight. It won't work!
- Retrieval practice is key – practice, test yourself (Look, Cover, Write, Check) and ask someone to test you! Use flashcards to help you.
- Use online programmes, such as Sparx, in which you are completing questions yourselves.
- Dig deeper – aim to seek a full understanding of the areas you are less sure of. If you can answer the "how?" and "why?" questions, you will have a much better understanding.
- Mocks matter: colleges, universities and employees will look at your predictions *before* your real GCSEs - and these are based on what you get in your mock exams!

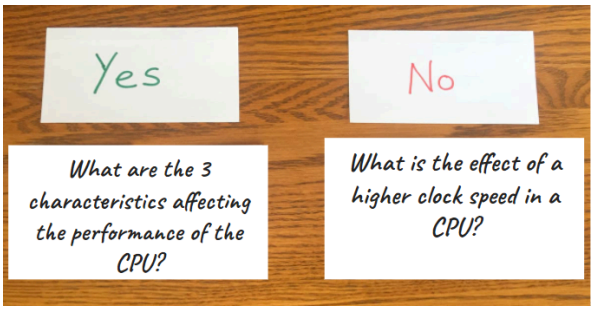

Overcoming the forgetting curve

All of us forget things when we learn them for the first time. The more times we've reviewed them, the less we forget! Therefore:

- Revise the mock exam you have the next day the day before so it's fresh in your mind
- But also revise all subjects little and often - don't leave until the last minute

How to use flashcards

1. Write a question or prompt on one side and the answer on the other!
2. Write examples on the card
3. Write quotes on one side and the theme / character / idea it relates to on the other
4. Test yourself or ask someone to test you. If you get the card wrong, come back to it later in that same testing session.
5. Acronyms: write an acronym on one side that spells out what is on the other side.

Subject	Mathematics
Exam Board	Edexcel Pearson
Paper being tested	Foundation – Paper 1 (Non-Calc), Paper 2 (Calc), Paper 3 (Calc) Higher – Paper 1 (Non-Calc), Paper 2 (Calc), Paper 3 (Calc)
Length	1 hour 30 mins each
Structure of paper	Entire Papers (80 Marks Papers)

What are the types of questions that can be asked?

The GCSE maths papers contain a mix of question styles, from short, single-mark questions to multi-step problems. The mathematical demand increases as you progress through the paper. When answering single mark questions, it's always worth double-checking your answer before moving on.

You can be tested on any of the following topics; number, algebra, ratio, proportion, geometry, probability and statistics.

Revision Strategies in Maths

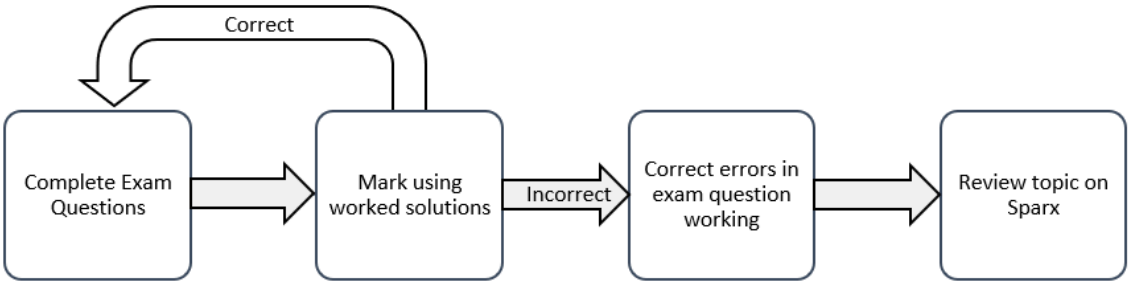

Revision Strategies & Techniques

Embedding revision strategies into practice gives students the opportunity to develop skills and habits which they can use for their GCSE Maths exams. They are advised to follow the strategies as below:

1. Regularly practice by maintaining consistency, managing your time effectively, and seeking constructive feedback to maximise your performance.
2. Completing (as many as possible) past exam questions
3. Practice doing questions under exam conditions
4. Use of flashcards
5. Understanding the problem by reading carefully, highlighting key points and formulate questions
6. Reviewing the work by double-checking calculations, cross-verification of answers, and reflecting on mistakes
7. Don't just practice the topics you can do – challenge yourself!

Exam Questions	Complete **exam questions**, using the high frequency booklet given to you by your teacher. Corbettmaths GCSE Foundation 100 Days to Go Revision Book 100 Days to Go · How to Use · Revision Cards · Revision Resources Corbettmaths GCSE Higher 100 Days to Go Revision Book 100 Days to Go · How to Use · Revision Cards · Revision Resources These booklets will include exam questions from the highest frequency topics across all three GCSE maths exam papers. These are the topics that appear most often in the GCSE papers. To excel in your GCSE Maths exam, use the revision booklet by starting early, actively engaging with the content, practicing regularly, and focusing on weak areas. If you find you're struggling with a topic, you should search for this on Sparx Independent Learning and review the skill with more questions and videos on Corbettmaths. 
Online platform	Sparx Maths

Subject	English Literature & English Language
Exam Board	AQA
Paper being tested	English Literature Paper 1 English Language Paper 1
Length	1 hour 45 min each
Structure of paper	Entire papers

What are the types of questions that can be asked?

<u>English Literature Paper 1</u>
You will be asked to complete one question on **Macbeth**, and one question on **A Christmas Carol**.

You will be given an extract from each text, and asked a question relating to character or theme. You will need to refer to the whole text, analyse the language in the extract given, and make reference to historical context and key concepts to fully answer the question in detail.

This paper makes up 40% of your overall literature mark.

<u>English Language Paper 1</u>
This is an assessment of your reading and writing skills, with each skill being worth 50% of the marks in the paper. It is based on a piece of fictional (made up) writing.

- Section A: **Reading section -** You'll answer four questions. These will ask you to:
    - a multiple choice question identifying information given in the text;
    - to analyse the writer's use of language (specific words, techniques, and sentence types) within a specific portion of the text;
    - to analyse the writer's use of structure (thinking of the text like a film, how they have chosen to change the focus throughout the text) in building to a certain moment;
    - to evaluate a statement, thinking both about why you have formulated that opinion, and how the writer has used their language/structure to convince you of this.
- Section B: **Writing section -** You'll produce a piece of creative writing - either a description or a moment from a story.

This paper makes up 50% of your overall language mark.

Revision Strategies in English

Revision Strategies & Techniques	
English Literature - focus on knowledge & recall (plot, themes, context, quotes)	
Quote recall practice	• Make flashcards with short quotations on one side, and key key themes or characters on the other • These should be short quotes, and mainly the ones studies in class
Theme/character maps	• Create a mindmap for each theme (e.g., ambition, power, redemption, etc) and each main character in both texts • Add quotes, context, and key moments
Context connections	• Make bullet-point reminders of big contextual ideas (e.g., Divine Right of Kings (M), Victorian poverty (ACC), and link these to quotes
Write mini-plans	• Instead of writing full essays every time, practice planning and writing just your introduction • Helps you to cover lots of possible questions
Practice papers	• **Complete times exam papers - these can be given to you by your teacher or found easily online** • **If you would like feedback on the work you've done, you can email it to Miss Pothecary (apothecary@hartlandhigh.co.uk)**
Braindump	• On a whiteboard or piece of paper, write down as much as you can remember about the text (e.g., characters, themes, quotes, key moments, etc.) in whatever way you see fit • Using a different colour pen (if possible), go back through your revision notes and add in anything you missed out from your brain dump
English Language - skills & practice (e.g., time drills & creative writing)	
One-minute annotation drill	• Take a short unseen extract. Give yourself one minute to highlight words, phrases, and structural shifts, as you would for Q2 & Q3 • This trains you to pick out evidence quickly under timed conditions.
Sentence stem practice	• Make flashcards with the sentence stems you have been taught in your lessons
Practice papers	• **Timed exam question practice - can be given to you by your teacher or found online** • **If you would like feedback on the work you've done, you can email it to Miss Pothecary (apothecary@hartlandhigh.co.uk)**
Vocabulary upgrade	• Build a personal 'wow word bank' of ambitious but useful vocabulary, and practice using them in your writing • E.g., oppressive, fragmented, luminous
5-4-3-2-1 Planning	Spend 5 minutes planning before writing: • 5 bullet points of what will happen (or what you'll describe) • 4 ambitious words/phrases to include • 3 types of punctuation to use (e.g. dash, colon, ellipsis)

	● 2 types of imagery (e.g. simile, personification) ● 1 sentence you want to open/close with
Slow motion writing	● Take a single moment (like opening a door, seeing a storm, a character's realisation). Write half a page just on that tiny action, using all senses. ● This builds descriptive detail and atmosphere, which examiners love.
Speed re-drafting	● Write for 20 minutes, then spend 5 minutes improving vocab and sentence variety with a different coloured pen ● This mimics exam conditions and improves control.

Key Websites for Revision			
			
Save My Exams (Lit)	Past Papers (Lit)	Revision world (Both)	Revision Guide (Lang)

Exam Questions	● Ask your English teacher/Miss Pothecary (in C12) ● Will be given in your February half term revision packs - **remember** you can do questions more than once to ensure you are improving each time ● Find examples online - make sure they look like what you have been doing in class, and are for AQA

Online platform	Complete your re-read of Macbeth and A Christmas Carol on Sparx.

Subject	Science
Exam Board	AQA
Paper being tested	Biology paper 1, Chemistry paper 1, Physics paper 1
Length	1hour 15 minutes (combined students)

What are the types of questions that can be asked?

The Combined Science Paper 1 mock exams will consist of three papers in total. Biology, Chemistry, and Physics. A typical exam paper will feature multiple-choice, structured short answer (1-4 marks), and extended response (6 mark) questions. These will assess knowledge, application, analysis, and evaluation of scientific concepts. Practical skills will be assessed through data analysis or method descriptions.

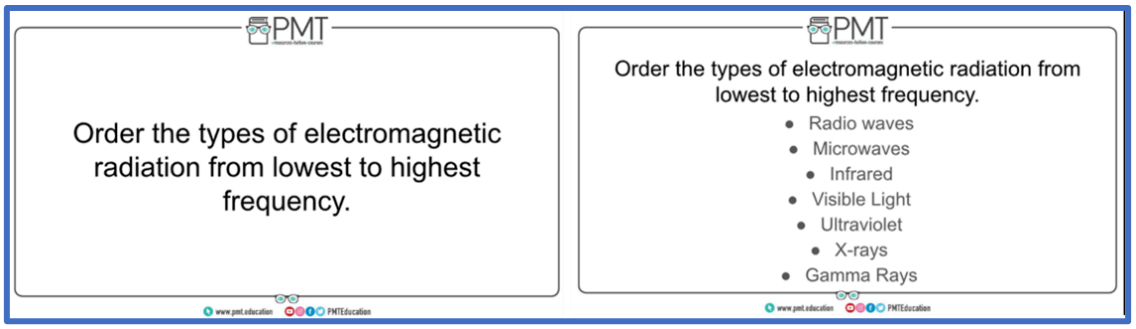

It has been announced that students will be given the Physics equation sheet in the exam. There is no requirement to memorise equations. However a scientific calculator is highly recommended.

Papers are tiered with Higher or Foundation. The overall grade is calculated from the total marks across all papers. Science awards two GCSE grades for example a 9-9 or a 3-2. Most colleges will be looking for 5-5+ for A level sciences. A 4-4 is considered a pass at GCSE.

Biology paper 1	Chemistry paper 1	Physics paper 1
Cell biology & Microscopes Enzymes Digestive system Respiratory system Communicable diseases Non-communicable diseases Respiration Photosynthesis	Atomic structure & the periodic table Isotopes Chemical bonding, (Ionic, covalent, metallic) Electrolysis Acids & Alkalis Reactivity series Quantitative chemistry (balancing equations, calculating concentration & Moles)	Energy stores & transfers Energy resources Electrical circuits National grid & plugs Solids, liquids & Gases Specific heat capacity Alpha, beta and gamma radiation Half life Uses of radiation

Revision Strategies

Revision Strategies & Techniques	
Flash cards	Recalling facts makes up roughly 30% of the combined science paper. For example the charge of a proton is positive. **Foundation Tier**: In Foundation Tier, there is likely to be a slightly higher proportion of questions testing direct recall of facts, definitions, and basic concepts. This is because the focus is on demonstrating a basic understanding of the core content. **Higher Tier**: In Higher Tier, the emphasis shifts more significantly towards applying knowledge to unfamiliar situations, analyzing data, and evaluating methods. While factual recall is still necessary, it's used as a stepping stone for higher-order thinking skills. **Definitions**: You need to know the definitions of key terms (e.g., photosynthesis, respiration, electrolysis, etc.). **Basic Concepts**: You need to understand basic concepts (e.g., the structure of an atom, the function of enzymes, etc.). **Practical Techniques:** You need to know the basic procedures and expected outcomes of the required practicals. Students are encouraged to produce their own flash cards, with a question on one side and the answer on the other. They

	should routinely quiz themselves. A good idea is to make a pile of questions you get right the first time and a pile of questions you struggle with. Students you make the most progress with constantly revisit the questions they struggled with until they know them off by heart. 
Exam Questions	Past exam questions are invaluable for GCSE revision. They provide a realistic preview of the exam format, question types, and time pressure. Students who make the most progress consistently use past papers to identify their strengths and weaknesses, focusing revision where needed. Each year, similar question styles and topics reappear, and some questions even have near-identical mark schemes. By practicing these questions, you become familiar with the expected wording and required level of detail for top marks, ultimately boosting your confidence and exam performance. Students should either focus on a certain topic they struggle with or do a full past exam paper (available online) and mark it themselves using the mark schemes. This gives them instant feedback on topics they need to improve on. There are lots of past papers available in the science office.

Key Websites for Revision

Subject	Religious Studies
Exam Board	Edexcel (Specification B)
Paper being tested	Christianity and Islam
Length	Christianity - 1hr 20 mins Islam 1hr 20mins

What are the types of questions that can be asked?

Each of the two papers are broken down into topic areas Each of these has exactly the same question format:

- "a" question: briefly outline three beliefs / teachings /examples relating to an area we have studied e.g *Outline three beliefs Muslims have about peace*
- "b" question: explain two teachings / beliefs / reasons for why Christians / Muslims approach a topic a certain way e.g. *Explain two teachings from Christianity about the relationship between men and women*
- "c" question: same as the "b" question, but you have to also include one reference to a "source of wisdom and authority" for one of your explanations e.g. *From the Bible or the Qur'an.*
- "d" questions: evaluate a statement giving reasons why people (especially Christians or Muslims) would agree / disagree with it and then say what your conclusion is and why, e.g - *'It is wrong for countries to have weapons of mass destruction.'*

Exam Questions

Paper 1 Christianity	Paper 2 - Islam
1. Belief in God • Trinity - What God is like and how Christians "know?" • Christian understanding of origins - creation etc • Jesus Christ, his unique identity and his life • Christ's crucifixion and resurrection • What is salvation and how does it happen? • What happens after we die? • The problem of suffering / evil – how do Christians respond to a good God who allows this?	**1. Belief in Allah** • The Six beliefs of Sunni Islam • The Five Roots of Shia Islam and the Imamate • Tawhid and the Nature of Allah • The Prophets – Why they were needed • The Kutubullah – the Muslim Holy Books • The Nature and importance of the angels • Predestination – how you are free but Allah is still in control • What happens after we die
	2. Crime and Punishment • What is justice and why is it important? • How Muslims view and combat crime • Different attitudes towards punishment • Muslim teachings about forgiveness; when/how? • Muslim teachings on how to treat criminals • Muslim attitudes towards the death penalty
3. Living the Christian Life • Different forms of worship (denominations) • What are sacraments and what are they for? • The nature and purpose of prayer • Pilgrimage – why and how • Significance of Christian celebrations and festivals • Role and importance of a local church • Missionary work and the future of the church • Church in the world-wide community.	**3. Living the Muslim Life** • The Ten Obligatory acts of Shia Islam • The meaning and practice of each of the "Five Pillars" o Shahadah – Declaration of faith o Salah - Prayer o Zakat - Charity o Sawm - fasting o Hajj - Pilgrimage • Jihad – what it is and what it isn't • Nature, origin and meaning of Muslim festivals
4. Matters of Life and Death • Christian teachings about the origins of the universe and the sanctity of life • How Christianity responds to the challenge of evolution • How sanctity of life / life after death influence Christians over abortion and euthanasia • How Christians view and care for the environment	

Subject	French
Exam Board	Edexcel - new specification 2024 - first examination 2026
Paper being tested	Listening, Reading and Writing on Module 1-4
Length	Listening: 45 min (F) / 1 hour (H) Reading: 45 min (F) / 1 hour (H) Writing: 1 hour and 15 minutes (F) / 1 hour and 20 minutes
Structure of paper	**Listening - 50 marks** **Section A -** comprehension tasks based on recording - 40 marks (QMC, gap fill, open question with English answer required) **Section B -** dictation - 10 marks **Speaking Exam - 50 marks** ● Role play situation ● Photocard - describe a picture ● Questions and answers about the topics you have covered and prepared in class. **Reading - 50 marks** **Section A -** comprehension tasks based on texts - 40 marks (QMC, gap fill, open question with English answer required) **Section B -** translation into English - 10 marks **Writing - 50 marks** Extended writing tasks ● Photo description (foundation only) - 8 marks ● 40-50 word task (foundation only) - 14 marks ● 80-90 word task (foundation and higher) - 18 marks ● 130-150 word task (higher only) - 22 marks ● Translation into French (foundation and higher) - 10 marks ○ foundation - sentences ○ higher - paragraph

What are the types of questions that can be asked?
You will be tested on your understanding of spoken and written French. You need to be able to recognise the vocabulary covered in the GCSE themes through the first 4 modules There will be a range of question types, from multiple choice to answering questions in English. In the listening paper, the final question is a dictation task and for the reading paper, the final question is a translation task from French into English. You will be tested on being able to write in French. While writing in French, you must answer questions that ask you to cover a list of bullet points - following mainly the same pattern: present tense, opinion, past tense and future tense. At the end of the writing paper, there is a translation into French to be assessed. You can be tested on any of the following themes: my personal world; lifestyle and wellbeing; media and technology; studying and my future for this set of mocks

Themes	Details
My personal world	family, friends, relationship and equality, free time activities and hobbies
Lifestyle and well-being	physical and mental well-being, food and drink, sports
Media and Technology	music, TV, film, social media and gaming
Studying and my future	school, school life, future opportunities and work

Revision Strategies

Revisions	Strategies
Revision timetable	Make a simple and manageable revision timetable – short sessions (20–30 minutes) with breaks. For example, you can find some videos on Youtube that use the pomodoro technique.
Exams questions practice	Complete Writing **exam questions** from tiered writing booklet provided. You can send me your writing questions to rwalker@hartlandhigh.co.uk for feedback.
Learning vocabulary	Test yourself from the KS4 French sentence builders booklet - equally if needed to review KS3 vocab or PAL mat, available on Google Classroom. ● Use the "Look, Cover, Write, Check" method, and write down the words you don't remember on flashcards (French on one side, English on the other). ● Read the word on the front. Say the answer out loud. ● Check the answer on the back. Alternatively, use the Quizlet vocab link on Google Classroom
Grammar revision	On Google Classroom, you can find grammar videos to revise tense structure and worksheets to practice.
Using website effectively	Here is a list of some key websites for revisions and exam practices **BBC Bitesize** BBC Bitesize 2026 BBC Bitesize 2025 Revision World **Quizlet / Memrise:** vocabulary and flashcard practice. **Seneca Learning:** free interactive revision courses. **Wordwall:** free interactive revision activities **Google Classroom:** grammar and vocabulary practice including exam questions practice.

Subject	Spanish

Subject	Business
Paper being tested	GCSE Business paper 1 and paper 2
Length	1h and 45 minutes
Structure of paper	**1 paper – 90 Marks** • Section A has multiple choice questions and short answer questions worth 20 marks. • Section B has one case study/data response stimuli with questions worth approximately 34 marks. • Section C has one case study/data response stimuli with questions worth approximately 36 marks. **Paper 2 – 90 Marks** • Section A has multiple choice questions and short answer questions worth 20 marks. • Section B has one case study/data response stimuli with questions worth approximately 34 marks. • Section C has one case study/data response stimuli with questions worth approximately 36 marks.

What are the types of questions that can be asked?
Paper 1: Section A begins with multiple choice questions and 2–4-mark questions Section B includes case studies and calculations. 2 – 9-mark questions. Section C includes case studies. Range of short, medium and long questions. 1–12-mark question Paper 2: Section A begins with multiple choice questions and 2 – 4-mark questions Section B includes case studies and calculations. 2 - 9-mark questions. Section C includes case studies and calculations. 2-12-mark questions

Paper 1:		
Business in the real world	The purpose and of businesses Business ownerships Setting business aims and objectives Stakeholders	Business locations Business planning Expanding a business
Influences on business	Technology Ethical and environmental considerations The economic climate on business	Globalisation Legislation Competitive environment
Business operations	Production processes The role of procurement	The concept of quality Good customer service
Human resources	Organisational structures Recruitment and selection of employees	Motivating employees Training

Subject	Computer Science
Paper being tested	OCR Paper 1
Length	1h and 30 minutes
Structure of paper	Paper 1- 5 topics Mixture of questions ranging from 1 - 8 marks. Non-calculator.

What are the types of questions that can be asked?
J277/01: Computer systems Written paper1: 1 hour and 30 minutes 50% of total GCSE 80 marks This is a non-calculator paper. All questions are mandatory. The question paper will consist of short and medium answer questions. There will also be one 8-mark extended response question. This question will enable students to demonstrate the ability to construct and develop a sustained line of reasoning.

Revision Strategies

- Make Flashcards Use flashcards to help you memorize key concepts.You can use physical flashcards or apps like Anki or Quizlet. Focus on Key Topics, Practice Coding, Review Textbook and Revision Guides, Use Online Revision Tools There are many online tools like **Seneca Learning**, **Quizlet**, and **BBC Bitesize** that offer interactive learning for computer science topics. These platforms often provide quizzes and practice questions, making studying more engaging.
- Complete exam questions, using Past papers.
